

HK Deal FlowSM

HK Deal FlowSM, a complimentary service established in 2017, generates deal leads through the combined network of Holland & Knight's lawyers and professionals, investment bankers and other deal intermediaries. We strategically match leads with clients and friends of the firm seeking opportunities.

The HK Deal FlowSM program also offers capital connection capabilities to engage independent sponsors seeking co-investors and private equity funds seeking limited partner (LP) investors with our firm's network of family offices and other institutional investors. The result is a robust matchmaking program connecting a range of acquisition and investment opportunities to buyers, lenders and investors.
