

**List of Chemical Ingredients Subject to Texas Senate Bill 25**  
**Food Product Labeling Disclosure Requirements**

- |                                                                               |                                                                   |
|-------------------------------------------------------------------------------|-------------------------------------------------------------------|
| 1. acetylated esters of mono- and diglycerides (acetic acid ester)            | 21. interesterified soybean oil                                   |
| 2. anisole                                                                    | 22. lactylated fatty acid esters of glycerol and propylene glycol |
| 3. azodicarbonamide (ADA)                                                     | 23. lye                                                           |
| 4. butylated hydroxyanisole (BHA)                                             | 24. morpholine                                                    |
| 5. butylated hydroxytoluene (BHT)                                             | 25. olestra                                                       |
| 6. bleached flour                                                             | 26. partially hydrogenated oil (PHO)                              |
| 7. blue 1 (CAS 3844-45-9)                                                     | 27. potassium aluminum sulfate                                    |
| 8. blue 2 (CAS 860-22-0)                                                      | 28. potassium bromate                                             |
| 9. bromated flour                                                             | 29. potassium iodate                                              |
| 10. calcium bromate                                                           | 30. propylene oxide                                               |
| 11. canthaxanthin                                                             | 31. propylparaben                                                 |
| 12. certified food colors by the U.S. Food and Drug Administration (FDA)      | 32. red 3 (CAS 16423-68-0)                                        |
| 13. citrus red 2 (CAS 6358-53-8)                                              | 33. red 4 (CAS 4548-53-2)                                         |
| 14. diacetyl                                                                  | 34. red 40 (CAS 25956-17-6)                                       |
| 15. diacetyl tartaric and fatty acid esters of mono- and diglycerides (DATEM) | 35. sodium aluminum sulfate                                       |
| 16. dimethylamylamine (DMAA)                                                  | 36. sodium lauryl sulfate                                         |
| 17. dioctyl sodium sulfosuccinate (DSS)                                       | 37. sodium stearyl fumarate                                       |
| 18. ficin                                                                     | 38. stearyl tartrate                                              |
| 19. green 3 (CAS 2353-45-9)                                                   | 39. synthetic trans fatty acid                                    |
| 20. interesterified palm oil                                                  | 40. thiodipropionic acid                                          |
|                                                                               | 41. titanium dioxide                                              |
|                                                                               | 42. toluene                                                       |
|                                                                               | 43. yellow 5 (CAS 1934-21-0)                                      |
|                                                                               | 44. yellow 6 (CAS 2783-94-0)                                      |
